

Newcastle Island

Snuneymuxw First Nation

www.newcastleisland.ca

Artists, Carvers, Crafters, Singers, Dance Groups, Writers, Storytellers ...

You are invited to be included in the SFN Artist Database

From time to time there are opportunities for artists to provide services within the community, for governmental projects and other organizations. When we find out about opportunities we will let those on the database know about them.

If you want to create, perform, display, sell, teach, mentor or otherwise participate in the art world it helps to have a solid portfolio and approach to connecting with the market. Sometimes talented people miss out on opportunities because they don't have an organized portfolio to present.

We can help database participants organize a portfolio to become market ready for opportunities to reach out with your art.
